# Bio-Yeasture

Feed Grade Bio-Additive

## Product Description

Bio-Yeasture is a bio-powered feed additive made from cultured yeast grown on wholesome field corn. The mixture is fermented under specific conditions, and then dried. It contains less than 5% of the live yeast cells used in the fermentation process, and 95% of the metabolites produced by the yeast culture. Bio-Yeasture can be added to animal feed to:

- Maintain animal gut health
- Improve nutrient utilization
- Enhance animal performance
- Stimulate the host immune system improving animal health and reducing morbidity

## Ingredient Composition

Saccharomyces cerevisiae yeast and corn

## Physical Characteristics

Color: light-brown

Taste: cornmeal, herbal

Texture: dust-free, uniform powder

## Typical Analysis

Crude Protein	12.0%
Crude Fat	3.0%
Crude Fiber	6.5%
Ash	6.5%
Moisture	8.0%

## Microbiological

Aerobic Plate Count(cfu/g)	≤ 30,000
Coliforms (cfu/g)	< 10
Yeast (cfu/g)	≤ 100
Mold (cfu/g)	≤ 100
<i>E. coli</i> (cfu/g)	< 10
<i>Staphylococcus aureus</i> (cfu/g)	< 10
<i>Salmonella</i> (cfu/g)	Negative/375 g x2

## Packaging Options

- 20 kg poly-lined paper bag
- 1,000 kg tote bag
